

Catherine Taylor Dawson

Biography ...

Catherine sang her first song in public aged 2yrs and hasn't stopped entertaining since!

With boundless energy for her art, music has taken Catherine all over the world from performing at prestigious parties along the Cote D'azur to entertaining for birthday celebrations in St. Barths & latterly performing, writing and recording in Ibiza.

Following a scholarship from Lord Lloyd Webber at 'Arts Educational London Schools' her passion for singing & creativity found her on the path of recording.

Her recording journey started in Sarmwest Studios Notting Hill, with Johnny Douglas' production team where occasionally she would enjoy the company of George Michael whilst working on an original project called 'Wild Flower'. Catherine performed regularly during this time on the London's hot music circuit in venues such as The Pigalle Club in Piccadilly Circus, The Half Moon in Putney a well loved singer songwriter haunt & The Cabaret Club & 2TooMuch in Soho to name a few...

In 2004 Catherine flew out to Barcelona to fill her boots with the passion and excitement of Spanish music & culture, jamming & entertaining in the Plazas & writing new material. Catherine gained gigs and a radio show slot on Radio Carmel, Barcelona featuring her original music.

London 2005 Catherine met Rainbow George and joined a motley crew to make a stand against the politicians with an original song called 'You People' written by Ben Reel ... which somehow lead to her standing for election & singing at the Cardiff count & outside the courts in Belfast, 'Make politicians history'

Ibiza...

CTD has most recently been re-igniting her creative soul & developing her spirituality & healing gifts on the magical Island of Ibiza whilst performing, writing & recording.

Since moving to Ibiza in 2017 Catherine has a deeper love & respect for sound vibration, the power of language and non dualism.

Living closer to nature and being at one with the spiritual community in Ibiza has gifted Catherine greatly. She has a deeper sense of purpose with her musical mission which is to inspire, heal, motivate and empower! It is with this excitement, love and fire in her belly she shares her music.

Aho!!
